

# What and how did we evaluate?

## FE Y ALEGRÍA'S IMPACT ON STUDENTS AND THEIR FAMILIES

2.886 student surveys from 284 schools

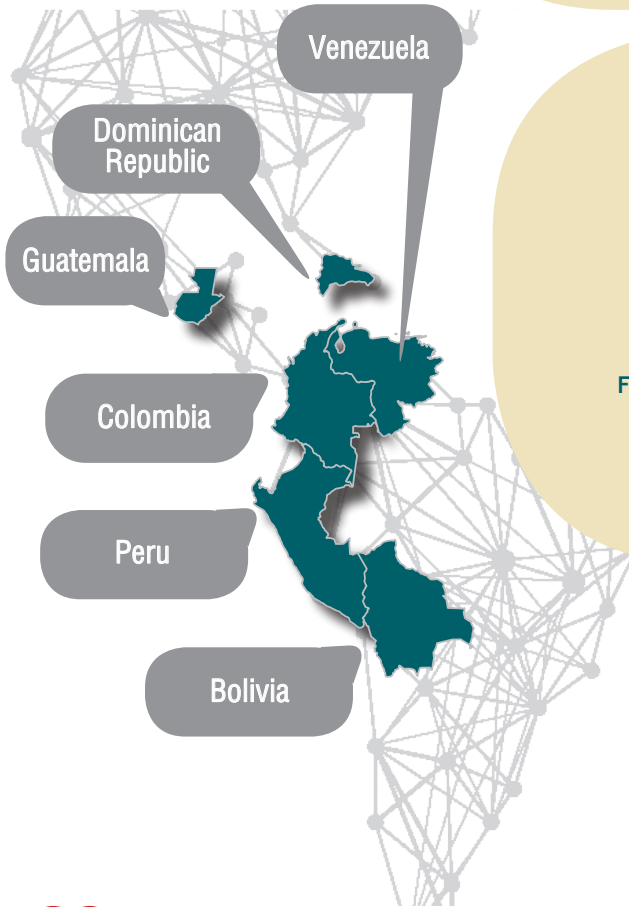

2.839 surveys on youth graduated from Fe y Alegria

1.444 surveys of primary and secondary level students in 144 Fe y Alegria schools, reflecting diversity in terms of geographic location, schools' antiquity, conditions of the infrastructure and academic results, among other aspects.

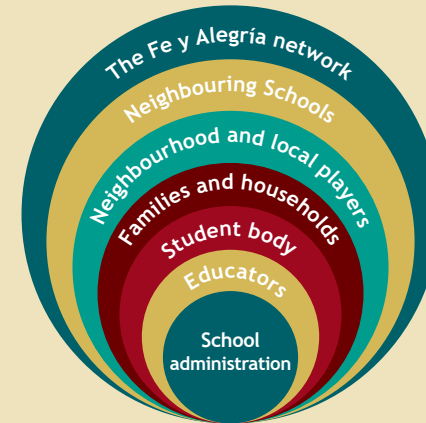

1.442 surveys of primary and secondary school students from 140 publicly managed schools called "mirror" schools due to their similarities in characteristics to those of Fe y Alegria in terms of size, location, and levels attended.

## FE Y ALEGRÍA'S IMPACT ON THE COMMUNITY

**24 Communities** with Fe y Alegria schools. A careful selection of four schools per country was made (two with difficulties and two success cases) and it was analyzed how they relate with the strict educational community and the neighbourhood surrounding them.

An in-depth study of local networks was carried out in which multiple dimensions, actors and levels of influence were considered, enabling representative conclusions to be drawn.

## FE Y ALEGRÍA'S IMPACT ON EDUCATIONAL MANAGEMENT AND PUBLIC POLICY

**106 semi-structured interviews** with key players in the education sector: civil society, research community, those responsible for public policies as well as Fe y Alegria.
